

## #4, TREAT, 30 PTS.

# WELCOME TO

Three fun-filled puzzles await you, and they can be solved in any order. You can split into a maximum 2 groups of at least 2. Every time you solve a puzzle, you'll get an answer and a shape to carve into your pumpkin. We've given you one shape to start you off.

The answers to the three puzzles will tell you where to go next, but don't go there until you've given us your finished pumpkin – that's the only way to get the overall solution word and your 30 points! Your pumpkin must use each of the four shapes exactly once, and it can't include anything else. Please carve only one side of the pumpkin.
