

**#3**

**CONSUMER HELL**

**TRICK, 45 pts.**

**Amidst the walls of Francis' town  
I found eight circles of a Hell  
With fiendish puzzles 'round and 'round.**

**I could not comprehend them well  
At first, but I began to think  
That they would, once decoded, tell**

**How each solution served to link  
Its puzzle with a different floor.  
And so to the Inferno's brink**

**I rode, then down again once more,  
Until I saw my answer's path  
More clearly than I had before.**

**-- Dante**

Note: We realize that there aren't a lot of good places to work on puzzles in this shopping center. Sorry! The Powell St. BART station on the bottom floor has more open space. Alternatively, you could always buy a snack at one of the restaurants and use one of their tables.
